SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Lithium-Ion Battery — Rechargeable

Techtronic Industries Power Equipment
P.O. Box 1288
Anderson, SC 29622

Model Number: GP40602
Issue Date: August 2019

Company Phone Number: 1-800-860-4650

Emergency Contact Number:
Chemtrec (United States only): 1-800-424-9300
(International): +1-703-741-5070

SECTION 2: HAZARDS IDENTIFICATION

Refer to battery cell SDS for more information.
No exposure to hazards during routine handling of product.

⚠️ WARNING:
- To reduce the risk of injury, user must read operator's manual.
- Risk of fire and burns.
- Do not open, crush, heat above 90°C, incinerate, or short terminals.
- Follow manufacturer's instructions.
- Use only with charger listed in operator's manual.
- Remove battery from tool when storing, changing attachments, or making adjustments.
- To reduce the risk of explosion and possible injury, do not place battery near fire or heat.
- Do not crush, drop, or damage battery pack.
- Do not use a battery pack that has been dropped or received a sharp blow. A damaged battery is subject to explosion. Properly dispose of a dropped or damaged battery immediately.
- Under extreme usage or temperature conditions, battery leakage may occur. If fluid comes in contact with your skin, wash immediately with soap and water. If fluid gets into your eyes, flush them with clean water for at least 10 minutes, then seek immediate medical attention. Following this rule will reduce the risk of serious personal injury.
- Battery cells and battery pack assembly will burn if incinerated.

SECTION 3: COMPOSITION/INFORMATION OF INGREDIENTS

Refer to battery cell SDS for more information.
SECTION 4: FIRST AID MEASURES

Refer to battery cell SDS for more information.
No exposure to hazards during routine handling of product.

WARNING:
- To reduce the risk of injury, user must read operator's manual.
- Risk of fire and burns.
- Do not open, crush, heat above 80°C, incinerate, or short terminals.
- Follow manufacturer's instructions.
- Use only with charger listed in operator's manual.
- Remove battery from tool when storing, changing attachments, or making adjustments.
- To reduce the risk of explosion and possible injury, do not place battery near fire or heat.
- Do not crush, drop, or damage battery pack.
- Do not use a battery pack that has been dropped or received a sharp blow. A damaged battery is subject to explosion. Properly dispose of a dropped or damaged battery immediately.
- Under extreme usage or temperature conditions, battery leakage may occur. If fluid comes in contact with your skin, wash immediately with soap and water. If fluid gets into your eyes, flush them with clean water for at least 10 minutes; then seek immediate medical attention. Following this rule will reduce the risk of serious personal injury.
- Battery cells and battery pack assembly will burn if incinerated.
- No exposure during routine handling of product. Risk of exposure occurs only if the battery is mechanically or electrically abused.
- No effect under routine handling and use to eyes, skin, or if inhaled. Ingestion is not likely, given the physical size and state of the cell. If swallowed, seek medical attention immediately.
- If exposure to internal materials within cell due to damaged outer casing, the following actions are recommended:

EYE CONTACT:
Flush with water for 10 minutes without rubbing and immediately seek medical attention.

SKIN CONTACT:
Wash area immediately with soap and water. If irritation continues, seek medical attention.

INHALATION:
Leave area immediately, move to fresh air, and seek medical attention.

INGESTION:
If swallowed, contact POISON CONTROL CENTER immediately.

SECTION 5: FIRE FIGHTING MEASURES

Refer to battery cell SDS for more information.
SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS:
- Use standard industrial clothing in normal use.
- If handling large containers of cells, wear steel-toed footwear.

ENVIRONMENTAL PRECAUTIONS:
No special precautions necessary.

METHODS FOR CONTAINMENT:
- Transport container outdoors.
- Always consult and obey all international, federal, and local environmental laws.

METHODS FOR CLEANUP:
No data available

OTHER INFORMATION:
No data available

SECTION 7: HANDLING AND STORAGE

HANDLING:
- Use only approved charging equipment.
- Do not disassemble battery or battery pack.
- Do not puncture, crush, or dispose of in fire.

STORAGE:
To obtain the longest possible battery life, we suggest the following:
- Remove the battery pack from the charger once it is fully charged and ready for use.
For battery pack storage longer than 30 days:
- Store the battery pack where the temperature is below 80°F and away from moisture.
- Store battery packs in a 30%-50% charged condition.
- Every six months of storage, charge the pack as normal.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION
Refer to battery cell SDS for more information.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES
Battery pack consists of battery cells assembled in resin enclosure and is a solid odorless product that will burn if incinerated.
SECTION 10: STABILITY AND REACTIVITY

Refer to battery cell SDS for more information.
No exposure to hazards during routine handling of product.

\* WARNING:
  - To reduce the risk of injury, user must read operator's manual.
  - Risk of fire and burns.
  - Do not open, crush, heat above 50°C, incinerate, or short terminals.
  - Follow manufacturer's instructions.
  - Use only with charger listed in operator's manual.
  - Remove battery from tool when storing, changing attachments, or making adjustments.
  - To reduce the risk of explosion and possible injury, do not place battery near fire or heat.
  - Do not crush, drop, or damage battery pack.
  - Do not use a battery pack that has been dropped or received a sharp blow. A damaged battery is subject to explosion. Properly dispose of a dropped or damaged battery immediately.
  - Under extreme usage or temperature conditions, battery leakage may occur. If fluid comes in contact with your skin, wash immediately with soap and water. If fluid gets into your eyes, flush them with clean water for at least 10 minutes, then seek immediate medical attention. Following this rule will reduce the risk of serious personal injury.
  - Battery cells and battery pack assembly will burn if incinerated.

SECTION 11: TOXICOLOGY INFORMATION

Refer to battery cell SDS for more information.
No exposure to hazards during routine handling of product.

\* WARNING:
  - To reduce the risk of injury, user must read operator's manual.
  - Risk of fire and burns.
  - Do not open, crush, heat above 50°C, incinerate, or short terminals.
  - Follow manufacturer's instructions.
  - Use only with charger listed in operator's manual.
  - Remove battery from tool when storing, changing attachments, or making adjustments.
  - To reduce the risk of explosion and possible injury, do not place battery near fire or heat.
  - Do not crush, drop, or damage battery pack.
  - Do not use a battery pack that has been dropped or received a sharp blow. A damaged battery is subject to explosion. Properly dispose of a dropped or damaged battery immediately.
  - Under extreme usage or temperature conditions, battery leakage may occur. If fluid comes in contact with your skin, wash immediately with soap and water. If fluid gets into your eyes, flush them with clean water for at least 10 minutes, then seek immediate medical attention. Following this rule will reduce the risk of serious personal injury.
  - Battery cells and battery pack assembly will burn if incinerated.
SECTION 12: ECOLOGICAL INFORMATION

ECOTOXICOLOGICAL INFORMATION:
None in routine handling of product.

TOXICITY:
No data available

PERSISTENCE AND DEGRADABILITY (BIOPERSISTENCY & BIODEGRADABILITY):
None in routine handling of product.

POTENTIAL OF BIOACCUMULATION:
None in routine handling of product.

MOBILITY IN SOIL:
None in routine handling of product.

OTHER ADVERSE EFFECTS:
No data available

DISPOSAL:
Follow guidelines in Section 13.

SECTION 13: DISPOSAL CONSIDERATIONS

This product contains Lithium-ion batteries. Local, state or federal laws may prohibit disposal of batteries in ordinary trash. Consult your local waste authority for information regarding available recycling and/or disposal options.

DISPOSAL:
- Dispose in accordance with appropriate regulations.
- Always consult and obey all international, federal, provincial/state, and local hazardous waste disposal laws. Some jurisdictions require recycling of this spent product. Battery recycling is encouraged.
- Lithium-ion batteries are safe for disposal in the normal municipal waste stream since they are not defined by the federal government as hazardous waste. However, Lithium-ion batteries are recyclable.
- To preserve natural resources, please recycle or dispose of batteries properly.

WARNING:
- Upon removal, cover the battery pack’s terminals with heavy-duty adhesive tape.
- Do not attempt to destroy or disassemble battery pack or remove any of its components.
- Batteries must be recycled or disposed of properly.
- Also, never touch both terminals with metal objects and/or body parts as a short circuit may result.
- Keep away from children. Failure to comply with these warnings could result in fire and/or serious injury.
- This product does not contain mercury, cadmium or Lithium (metal).
- DO NOT INCINERATE battery cells.
SECTION 14: TRANSPORTATION INFORMATION

U.S. DOT Hazardous Material Regulations (Re: Ground Transport)
UN3480 Lithium-ion batteries over 101 watt hours or UN3481 Lithium-ion batteries packed with equipment over 101 watt hours when packaged correctly can travel under 49 CFR 173.185 when travelling by ground in the continental U.S. Must have the IACO label (UN3480) for batteries only, UN3481 for batteries packed with equipment.

Canada Transport Dangerous Goods (Re: Ground Transport)
UN3480 Lithium-ion batteries over 101 watt hours or UN3481 Lithium-ion batteries packed with equipment over 101 watt hours when traveling by ground in Canada must be declared as Dangerous Goods. The batteries must be packaged according to Packing Instruction 965. The following labels must be on the package: DG9 diamond, Red Border Lithium-ion battery label (ICAO). The package must also include a UN3480 Lithium-ion batteries label with the net weight of the batteries in kgs. The ACL must also state UN3=80, Lithium-ion batteries, 0, PGII or UN3481 Lithium-ion batteries packed with equipment, 0, PGII.

International Dangerous Goods Regulations (Re: Air, Sea, Ground Transport)
UN3480 Lithium-ion batteries over 101 watt hours or UN3481 Lithium-ion batteries over 101 watt hours packed with equipment when shipped by sea will be considered Class 9 Dangerous Goods must be packaged according to Packing Instruction 965, and contain the following labels: DG9 diamond, Red Border Lithium-ion battery label (ICAO), and UN3480/3481 label with the kg of lithium label.

UN3480 Lithium-ion batteries over 101 watt hours or UN3481 Lithium-ion batteries over 101 watt hours packed with equipment when shipped by air will be considered Class 9 Dangerous Goods must be packaged according to Packing Instruction 965, and contain the following labels: DG9 diamond, Red Border Lithium-ion battery label (ICAO), Cargo Aircraft Only, and a label stating the amount of kgs of lithium in the box.

This rechargeable Lithium-ion battery has passed the relevant transportation test requirements as described in the UN Manual of Tests and Criteria, Part III, section 38.3. UN 38.3 Test Reports are maintained by the company.

SECTION 15: REGULATORY INFORMATION

Compliant with, relevant transportation test requirements as described in the UN Manual of Tests & Criteria, Part III, Sub section 38.3.

CALIFORNIA PROPOSITION 65

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

SECTION 16: OTHER INFORMATION

The information contained within this document is provided for your information only. In case of any discrepancy, the information provided in the battery cell Safety Data Sheet takes precedence over the information provided in the battery pack Technical Data Sheet.

Prepared by: TechTronic Industries Power Equipment

The batteries referenced herein are considered exempt articles and are not subject to the OSHA Hazard Communication Standard, therefore an SDS is not required. This sheet is being provided as a service to our customers.

The information and recommendations set forth are made in good faith and believed to be accurate as of the date of preparation. TECHTRONIC INDUSTRIES POWER EQUIPMENT makes no warranty, expressed or implied, regarding the accuracy of this data or the results to be obtained from the use thereof.
MSDS Report

Sample Description & Model
Lithium-ion Cell ICR18650/20P

Applicant
EVE Energy Co., Ltd

Address
NO.36, HuiFeng 7th Road, Zhongkai Hi-Tech Zone, Hui Zhou, Guangdong, China

No.: MDIKXGJN51541716
Code: mt92f0z
Section 1. Chemical Product and Company Identification

Product Identification:
- Name: Lithium-ion Cell
- Model: ICR1865020P
- Recommended Uses: N/A
- Restrictions on Use: N/A
- Supplier Name: EVE Energy Co., Ltd.
- Address: NO.36, Huifeng 7th Rd, Zhongka Hi-Tech Zone, Huizhou, Guangdong, China
- Phone Number: 0752-5751922
- FAX: 0752-2566033
- Email: 018158@evebattery.com
- Emergency Phone Number: 0752-5751032

Section 2. Hazards Identification

Emergency Overview: This product is an article which contains a chemical substance. Safety information is given for exposure to the article as sold. Intended use of the product should not result in exposure to the chemical substance. This is a battery. In case of rupture: the below hazards exist.

CAS#: 1333-86-4
Classification according to GHS
- Carcinogenicity (2)
- Specific target organ toxicity, repeated exposure (1) (lung)

Label Elements

Hazard pictograms:

Signal Word: Danger

Hazard Statements:
- H351 Suspected of causing cancer
- H372 Causes damage to organs through prolonged or repeated exposure (lung)
Precautionary statement(s):
Prevention:
P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P303 Wear protective gloves, protective clothing, eye protection and face protection.
P264 Wash skin and clothing thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
Response:
P308 + P313 If exposed or concerned: Get medical advice.
P314 If you feel unwell.
Storage
P405 Store locked up.
Disposal:
P504 Contents handling to approved waste treatment plants.

CASNo: 546-98-8
Classification according to GHS
Flammable liquids (2)
Specific target organ toxicity, single exposure; Narcotic effects (3)
Reproductive toxicity (2)

Label elements

Hazard pictogram(s):

Signal word:
Danger

Hazard statement(s):
H225 Highly flammable liquid and vapour.
H335 May cause drowsiness or dizziness
H361 Suspected of damaging fertility or the unborn child
Precautionary statement(s):
Prevention:
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P233 Keep container tightly closed.
P240 Ground and bond container and receiving equipment.
P241 Use explosion-proof equipment.
P242 Use non-sparking tools.
P243 Take action to prevent static discharges.
P200 Wear protective gloves, protective clothing, eye protection and face protection.
P261 Avoid breathing gas, mist, vapours and spray.
P271 Use only outdoors or in a well-ventilated area.
P201 Obtain special instructions before use.
P262 Do not handle until all safety precautions have been read and understood.
Response:
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing.
Rinse skin with water.
P370 + P378 In case of fire: Use appropriate extinguishing media, wet or dry powder.
P304 + P340 IF INHALED: If still breathing, go to a fresh air and keep comfortable breathing.
P304 Call a POISON CENTER or doctor, if you feel unwell.
P305 + P313 IF exposed or contamined: Get medical advice.
Storage:
P403 + P235 Store in a well-ventilated place. Keep cool.
P403 + P233 Store In a well-ventilated place. Keep container tightly closed.
P405 Store locked up,
Disposal:
P501 Contents handling to approved waste treatment plants.

CAS# 7440-40-8
Classification according to GHS
Specific target organ toxicity, single exposure; Respiratory tract irritation (3)
Specific target organ toxicity, repeated exposure (1) (liver)
Hazardous to the aquatic environment, long-term hazard (3)

Label elements
Hazard pictogram(s): 

Signal word: Danger

Hazard statement(s):
H335 May cause respiratory irritation
H372 Causes damage to organs through prolonged or repeated exposure (liver)
H412 Harmful to aquatic life with long lasting effects
Precautionary statement(s):
Prevention:
P271 Use only outdoors or in a well-ventilated area.
P260 Do not breathe dust.
P264 Wash skin and clothing thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P273 Avoid release to the environment.

Response:
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P312 Call a POISON CENTER or doctor if you feel unwell.

Storage
P403 + P233 Store in a well-ventilated place, keep container tightly closed.

Disposal:
P501 Contents or container handling to approved waste treatment plants.

CAS# 7423-90-5

Classification according to GHS
Specific target organ toxicity, repeated exposure (1) (Lung)
Hazardous to the aquatic environment, long-term hazard (4)

Label elements

Hazard pictogram(s):

Signal word: Danger

Hazard statement(s):
H322 Causes damage to organs through prolonged or repeated exposure (Lung).
H413 May cause long lasting harmful effects to aquatic life.

Precautionary statement(s):
Prevention:
P260 Do not breathe dust.
P264 Wash skin and clothing thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P273 Avoid release to the environment.

Response:
P314 Get medical advice if you feel unwell.

Storage
None.

Disposal:
P501 Contents handling to approved waste treatment plants.

Other hazards
Physical and chemical hazards: See Section 9
Human health hazards: See Section 11
Environmental hazards: See Section 12

Section 3 - Composition Information on Ingredients

Chemical characterization: Mixture.

Section 4 - First Aid Measures

Description of first aid measures
General information: No special measures required.

After eye contact
Flush eyes with plenty of water for several minutes while holding eyelids open. Get medical attention if irritation persists.

After skin contact
Remove contaminated clothing and shoes. Immediately wash with water and soap and rinse thoroughly. Wash clothing and shoes before reuse. If irritation occurs, get medical attention.
Section 5 - Fire Fighting Measures

Suitable extinguishing media:
Use extinguishing agent suitable for local conditions and the surrounding environment. Such as dry powder, CO₂.

Unsuitable extinguishing media:
No data available.

Specific hazards arising from the chemical:
Special hazards arising from the substance or mixture
Battery may burst and release hazardous decomposition products when exposed to a fire situation. Lithium-ion batteries contain flammable electrolyte that may vent, ignite and produce sparks when subjected to high temperature (>150°C, 302°F), when damaged or abused (e.g., mechanical damage or electrical overcharging); may burn rapidly with flare-burning effect; may ignite other batteries in close proximity.

Specific protective actions for fire-fighters:

Section 6 - Accidental Release Measures

Personal precautions:
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

Protective equipment:
No data available.

Emergency procedures:
Remove ignition sources, evacuate area. Sweep up using a method that does not generate dust. Collect as much of the spilled material as possible, place the spilled material into a suitable disposal container. Keep spilled material out of sewers, ditches and bodies of water.
Section 7 - Handling and Storage

Precautions for safe handling:
Consumption of food and beverage should be avoided in work areas.
Wash hands with soap and water before eating, drinking.
Ground containers when transferring liquid to prevent static accumulation and discharge.

Information about fire and explosion protection
Batteries may explode or cause burns if disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.

Conditions for safe storage, including any incompatibilities:
Requirements to be met by storerooms and receptacles
Store in a cool, dry, well-ventilated place.
Information about storage in one common storage facility
Keep away from heat, avoiding the long time of sunlight.
Further information about storage conditions
Keep container tightly sealed.
Specific use
No data available.

**Appropriate engineering controls:**
The usual precautionary measures for handling chemicals should be followed:
- Keep away from foodstuffs, beverages and feed.
- Remove all soiled and contaminated clothing immediately.
- Wash hands before breaks and at the end of work.

**Personal Protective Equipment:**
- Respiratory protection: Wear suitable protective mask in order to reduce the respiratory system. A large number of leakage, wear chemical protective clothing, including self-contained breathing apparatus.
- Hand Protection: Wear appropriate protective gloves to reduce skin contact.
- Eye Protection: Wear safety goggles or eye protection combined with respiratory protection.
- Skin and Body Protection: Working environment required, wear suitable protective clothing to minimize contact with skin. The type of protective equipment must be according to the concentration and the content of certain hazardous substances in the workplace.

**Section 9. Physical and Chemical Properties**

Information on basic physical and chemical properties:

- **Colour:** Green.
- **Physical State:** Cylindrical.
- **Odour:** Not available.
- **Odour threshold:** Not available.
- **pH:** Not available.
