⚠ TIPS FOR REMOVING YOUR OLD FAUCET

Turn your water supply off before removing your old faucet. Open the faucet handle to relieve any water pressure and to make sure that complete water shut off has been achieved.

Care & Maintenance

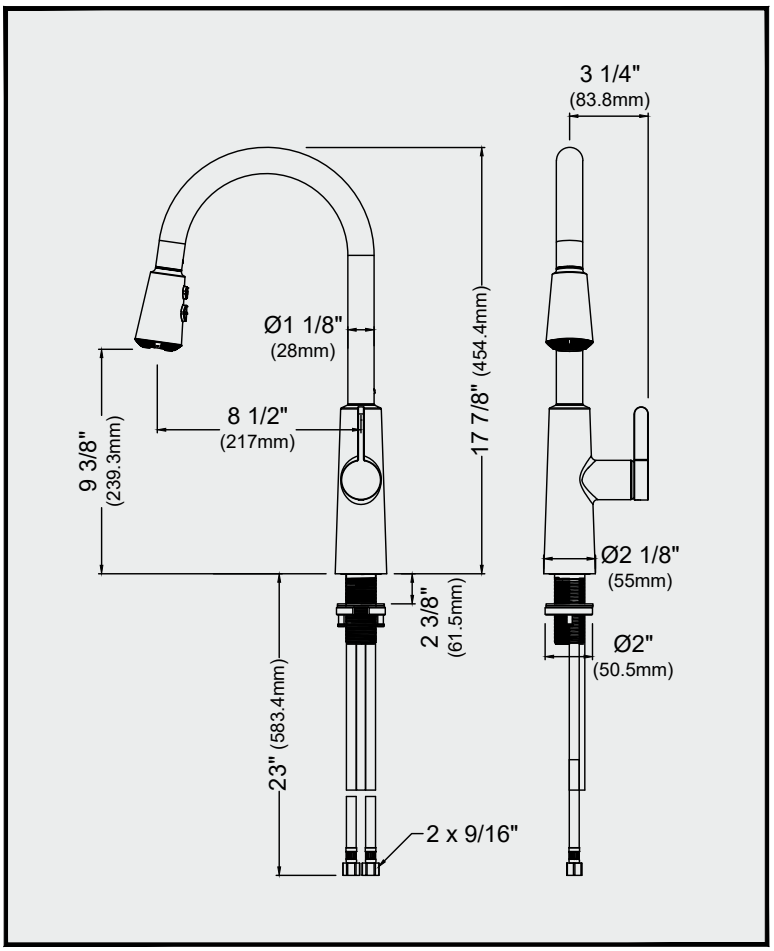

To clean, rinse with clean water and dry with a soft cloth. Do not clean with soaps, polish, abrasives or harsh cleaners, they can cause damage to the finish. Do not use any cloth with a coarse finish. Clean the aerator when needed.
