

Frameless Sliding Bathtub Door

Installation & Assembly Instructions

Safety Information

- Read all instructions carefully before beginning installation.
- Wear appropriate safety gear, including gloves and safety glasses.
- Handle glass panels with care. Always have at least two people for lifting and positioning.
- Ensure the installation area is clean, level, and free of obstructions.
- Professional installation is recommended due to weight and complexity.

Tools Required

- Drill with bits
- Level
- Measuring tape
- Screwdriver
- Rubber mallet
- Pencil or marker
- Caulking gun (if sealing is required)

Assembly & Installation Steps

- 1 Prepare the area by ensuring finished walls and a stable bathtub edge.
- 2 Mark drill holes for wall brackets using a level and measuring tape.
- 3 Drill pilot holes and secure wall brackets firmly.
- 4 Position the bottom guide or threshold and secure it in place.
- 5 Install rollers onto the glass panels according to hardware orientation.
- 6 Carefully lift and place glass panels onto the guide rail and rollers.
- 7 Secure handles or towel bars onto glass panels.
- 8 Test sliding motion to ensure smooth operation and alignment.
- 9 Install seals and guides as necessary for water protection.
- 10 Apply silicone sealant along edges if recommended.
- 11 Allow sufficient curing time before first use.

Maintenance & Care

- Clean glass panels regularly with a non-abrasive cleaner.
- Check hardware periodically to ensure screws and rollers remain tight.
- Avoid harsh chemicals that may damage finishes or seals.
- Ensure seals are intact to prevent water leakage.
- Lubricate rollers lightly if sliding becomes difficult.

Warranty Information

This product is covered by a limited warranty against manufacturing defects. Proof of purchase is required. For service or support, contact customer care.
