

SAFETY DATA SHEET — 16 Sections

SECTION 1 — CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Identifier				[WHMIS C	[WHMIS Classification]	
Vermiculite				Not Applicable		
Product Use				-		
Insulating aggregate, Soil cond	itioner, Lov	w density filler, Absort	pent			
Manufacturer's Name			Supplier's Name			
Therm-O-Rock East, Inc.						
Street Address			Street Address			
1 Pine Street						
City		Province	City			Province
New Eagle		PA				
Postal Code Emergency Tele		lephone	Postal Code		Emergency T	elephone
15067 724-258-3670						
Date MSDS Prepared		MSDS Prepared By		Phone Number		
9-30-2013		Stanley R. Slawek		(724) 258-3670		

SECTION 2 — HAZARDS IDENTIFICATION

Route of Entry 🛛 Skin Contact 🔲 Skin Absorption 🖾 Eye Contact 🛛 Inhalation 🗌 Ingestion
Emergency Overview Product is tan flakes, granules or powder with no odor. Dusts may cause irritation of eyes, skin, mucous membranes and
respiratory tract. Wear appropriate personal protective equipment. Keep individuals not involved in the cleanup out of the area. Pick up released product with appropriate implements and return to original container if reusable. If not reusable, place in appropriate containers for disposal. Although the product itself is non-hazardous, material collected during clean up operations may be contaminated and should be treated as hazardous unless specific testing, including TCLP, shows the collected material to be non-hazardous. Product is quite inert and is not expected to present an environmental hazard.
WHMIS Symbols
Not Regulated Potential Health Effects
No specific long term health effects have been identified for asbestos and silica free vermiculite. As is true of all nuisance or inert particulates, inhalation of high concentrations of vermiculite dusts and/or particulates over prolonged periods of time may cause a benign pneumoconiosis.
Prolonged exposure to respirable crystalline silica (quartz) may cause a progressive, disabling lung disorder (silicosis). Symptoms may include, cough, shortness of breath, wheezing, decrease in pulmonary function, and recurring non-specific pulmonary illness. The onset of symptoms, except in cases of massive exposures, is usually gradual over a period of several years and is accompanied by changes in the x-ray picture of lungs. Crystalline silica has been listed a potential human carcinogen (2A) by the International Agency for Research on Cancer (IARC) and as a substance that can be reasonably anticipated to cause cancer in humans by the National Toxicology program.
Pre-existing lung and skin conditions may possibly be aggravated by exposure to the components of the product.

SECTION 3 — COMPOSITION/INFORMATION ON INGREDIENTS

Hazardous Ingredients (specific)	%	CAS Number	LD ₅₀ of Ingredient (specify species and route)	LC 50 of Ingredient (specify species)	OSHA PEL (mg/m3)	ACGIH TLV (mg/m3)
Vermiculite (Magnesium, Aluminum Iron Silicate)	>98	1318-00-9	Not Available	Not Available	10	1
Silica	≈1	14808-60-7	Not Available	Not Available	Not Available	.05

SECTION 4 — FIRST AID MEASURES

Skin Contact

Wash thoroughly with mild soap and water. Seek medical attention if irritation develops. Remove any contaminated clothing and launder thoroughly before reuse.

Flush with tepid water for at least 20 minutes holding the eyelids wide open. Seek medical attention if irritation develops.

Remove exposed person to fresh air. If breathing is difficult, oxygen may be administered. If breathing has stopped, artificial respiration should be started immediately. Seek medical attention.

Ingestion

Not expected to be an important route of entry into the body. If large amounts of the product are ingested, seek medical attention.

SECTION 5 — FIRE FIGHTING MEASURES

Flammable	If yes, under which conditions?				
Yes No					
Means of Extinction					
Use extinguishing media appropriate for s	urrounding material.				
Flashpoint (° C) and Method	Upper Flammable Limit (% by volume)	Lower Flammable Limit (% by volume)			
Not Available	Not Available	Not Available			
Auto ignition Temperature (°C)	Explosion Data — Sensitivity to Impact	Explosion Data — Sensitivity to Static Discharge			
Not Available	Not Available	Not Available			
Hazardous Combustion Products					
Not Available					
NEPA					
Health: 1, Flammability: 0, Reactivity: 0, Other: None					

SECTION 6 — ACCIDENTAL RELEASE MEASURES

Pick up released product with appropriate implements and return to original container if reusable. If not reusable, place in appropriate containers for disposal. Appropriate personal protective equipment cited in Section 8 should be worn during all clean up operations. Although the product itself is non-hazardous, material collected during clean up operations may be contaminated and should be treated as hazardous unless specific testing, including TCLP, shows the collected material to be non hazardous

SECTION 7 — HANDLING AND STORAGE

Handling Procedures and Equipme

Appropriate personal protective equipment cited in Section 8 should be worn during handling. Wet mopping or vacuuming with a unit that contains a HEPA filter is recommended to clean up any dusts that may be generated during handling and processing. See also section 6. Wash hands and face thoroughly before eating, drinking or smoking.

Storage Requirements

Do not store with or near incompatible materials cited in Section 10. Store in tightly closed containers out of contact with the elements. Good housekeeping and engineering practices should be employed to prevent the generation and accumulation of dusts.

SECTION 8 — EXPOSURE CONTROL / PERSONAL PROTECTION

Exposure Limits	ACGIH TLV	🛛 OSHA PEL	Other (spec	ify)		
Specific Engineering Controls (suc	ch as ventilation, enclos	ed process)				
of 10 mg/M^3 for total	particulates and d in the latest ec Industrial Venti y a professiona	d 3 mg/M^3 for r lition of "Industri lation, P.O. Box	espirable parti al Ventilation: 16153 Lansing	culates. Design de A manual of Reco g, MI 48910. The r	etails for local mmended Pra need for local	ectices" published by the exhaust ventilation
Personal Protective Equipment	Gloves	Respirator	🔀 Eye	Footwear	Clothing	Other
If checked, please specity type						
Gloves: Polymeric glov recommended.	ves are recomm	nended to prever	nt possible irrit	ation. PVC or simi	ilar constructio	on materials are
Respirator: If dusts or particulates are generated during handling or processing and exposures may exceed the limits cited above, use, as a minimum, a NIOSH approved1/2 face piece respirator with cartridges approved for particulate matter with an exposure limit of not less than 0.05 mg/M^3. If exposures may exceed 10 times the limit cited in Section 2, consult your respiratory protective equipment supplier or a professional industrial hygienist for selection of the proper equipment. The evaluation of the need for respiratory protection should be made by a professional industrial hygienist.						
Eye: Chemical protective goggles are recommended where there is the possibility of eye contact with the product. Safety glasses with side shields are recommended for all other operations.						
Clothing: A polymeric coated apron or other body covering is recommended where there is a possibility if regular work clothing becoming contaminated with the product. All soiled or dirty clothing and personal protective equipment should be thoroughly cleaned and reuse.						

SECTION 9 — PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Odor and Appearance	Odor Threshold (ppm)
Solid	Tan Flakes, Granules, or Powder.	None
Specific Gravity	Vapor Density (air = 1)	Vapor Pressure (mmHg)
(Bulk) 0.66-0.96 g/cc	N/A	N/A
Evaporation Rate	Boiling Point (° C)	Freezing Point (° C)
N/A	Not Determined	N/A
рН	Coefficient of Water/Oil Distribution	[Solubility in Water]
N/A	N/A	<1 %

SECTION 10 — STABILITY AND REACTIVITY

Chemical Stability			If no, under which conditions?		
	⊠Yes	🗌 No			
Incompatibility with Ot	her Substances		It yes, which ones?		
	⊠Y e s	Νο	Do not store with strong acids, or reducing agents.		
Reactivity and under what conditions?					
Product will undergo an exfoliation reaction with a resultant large increase in volume at approximately 300°.					
Hazardous Decomposition Products					
None that are known. Product is stable to at least 2400° F.					

SECTION 11 — TOXICOLOGICAL INFORMATION

Effects of Acute Exposure

Eye contact may cause mechanical irritations if exposed to excessive amount of vermiculite. Skin contact may aggravate existing dermatitis. Inhalation from prolonged and continuous exposure may aggravate existing asthmatic or respiratory conditions.

Effects of chronic exposure

Prolonged inhalation of excessive levels vermiculite dust may cause a simple pneumoconiotic condition, not normally associated with a decrement in lung function. In cases of long-term exposure to extremely high levels of dust, complicated pneumoconiosis with lung function may occur.

Irritancy of Product	
N/A	
Skin sensitization	Respiratory sensitization

N/A	N/A
Reproductive toxicity	leratogenicity
N/A	N/A
Embrotoxicity	Mutagenicity
N/A	N/A
Name of synergistic products/effects	
N/A	

SECTION 12 — ECOLOGICAL INFORMATION

Aquatic Toxicity

In vitro ecotoxicity studies conducted on aqueous extracts of the product under the auspices of the South African Department of Water Affairs and Forestry in 1998 indicated that the product most probably is not toxic to the environment. In each of the ecotoxicity tests cited below, 50 grams of the product were extracted with a liter of distilled water. The resulting solution was used to derive the toxicity parameters. The 48 hour EC_0 and EC_{50} (Daphnia pulex lethality) were determined to be >50 milligrams of extract per liter (mg/l). The 72 hour EC_0 and EC_{50} (algal, Selenastrum capricornutum, growth inhibition) were determined to be >50 mg/l. The 72 hour EC_0 and EC_{50} (bacterial, Pseudomonas putida, growth inhibition) were determined to be >50 mg/l. The 48 hour EC_0 and EC_{50} (frog, Xenopus laevis, embryo lethality) were determined to be >50 mg/l.

SECTION 13 — DISPOSAL CONSIDERATIONS

Waste Disposal

As prepared, product is considered non-hazardous. It should be disposed of in and EPA approved landfill in accordance with all local, state and federal regulations. If used or waste product is disposed of testing, including TCLP, should be conducted to determine hazard characteristics. Empty containers will contain product residues. Observe proper safety and handling precautions. Do not allow empty containers or packaging to be used for any purpose except to store and ship original product.

SECTION 14 — TRANSPORT INFORMATION

Special Shipping Information					
Not currently regulated under Department of Transportation regulations.

SECTION 15 — REGULATORY INFORMATION

WHMIS Classification	OSHA			
Not Controlled	Irritant, Lung Hazard, Skin Hazard, Eye Hazard.			
SERA	TSC			
Acute Hazard.	Not Listed			
This product has been classified in accordance with the hazard criteria of the				

Controlled Products Regulations (CPR) and the SDS contains all of the information required by CPR.

SECTION 16 — OTHER INFORMATION

Notice: This information relates only to the material designated and may not be valid for such material used in combination with any other materials or in any process. All statements, information and data provided are believed to be accurate and reliable, but are presented without any guarantee, representation, warranty or responsibility of any kind, expressed or implied. Any and all representations and/or warranties of merchantability of fitness for a particular purpose are specifically disclaimed. Users should make their own investigations as to the suitability of the information or product for their particular purpose. Nothing in this document is intended as permission, inducement or recommendation to violate any laws or practice any invention covered by existing patents, copyrights or inventions. Therm-O-Rock East, Inc. does not accept liability for any loss or damage that may occur from the use of this information.
