

Bona® Multi-Surface Floor Care Kit

Box Includes

A. Bona Microfiber Mop

B. Bona Hardwood Floor Cleaner

C. Bona Hardwood Floor Cleaner Concentrate Pouch

D. Bona Microfiber Cleaning Pad

E. Bona Hard-Surface Floor Cleaner

C. Bona Hard-Surface Floor Cleaner Concentrate Pouch

Assembly Instructions

- 1 Assemble mop pole by attaching the four sections together.
- 2 The silver O-Ring on the mop pole and the Bona® logo on the mop base should both be facing the front. Ensure that the swivel knuckle on the mop pole is facing down before attachment. Attach mop pole to mop base by aligning recessed slots in knuckle with tabs of similar size in mop base. Push to connect. Connection should happen easily. If not, tabs and recesses may not be aligned correctly. If that is the case turn the mop pole 180 degrees and try again.
- 3 Attach Bona Microfiber Cleaning Pad to mop base by placing pad on the floor with the printed side facing up. Place the mop base over the center of the pad and press down firmly to attach. The Bona logo should face forward while mopping. Your mop is now ready to use!

Bona Hardwood Floor Cleaner is safe for all unwaxed & finished wood floors.

Bona Hard-Surface Floor Cleaner is safe for sealed stone, tile, laminate, luxury vinyl, and other hard-surface floors.

The **Bona Microfiber Cleaning Pad** won't scratch your floor, and is safe for all hardwood and hard-surface floors.
