

# SAFETY INFORMATION

## UTILITIES SAFETY

**WARNING:** Serious injury or even death may occur if you handle utility connections (gas, water, electric).

Have qualified utilities professionals perform any utility connections or disconnections. Make sure you have shut off the power to electrical lines and outlets you may come into contact with while remodeling or which may have to be moved. Do this by shutting off the circuit breaker/fuse at the electrical panel. Use a circuit tester to make sure the power is off. Check both receptacles in a duplex outlet because they could each be on a different circuit. Know where utility lines are located to avoid drilling into them.

## INSTALLATION SAFETY

Because of the size and weight of cabinetry, DO NOT install by yourself. Installation should be done by at least two able-bodied people working together. Wear protective eyewear, gloves and boots. Always maintain a clean, organized work area.
