Speed selection and function introduction:

Speed setting	function	description
1 (low speed)	mix/ stir	Mix large quantities and dry food at low speed, such as flour, sugar, etc.
2	Slow speed beater	After adding the liquid, stir into a salad and sauce with a suitable speed
3	mix/ stir	cake
4	mix/high speed mixer	Pan or cake
5 (high speed)	powder	Pan or cake
PULSE (high speed)	blender	Vegetable fruit
	chopper	Vegetable&meat

Hand mixer (double beater/dough hooks/whisk)

- Ensure they insert in right place.
- Power on.
- Put ingredients in a container suitable for mixing, hold the handle of the appliance, start the appliance and start stirring the food to be mixed.
- To avoid the risk of food splashing and injury, you can adjust the appropriate whipping speed in the following ways during use.

You can use the pulse speed knob at any time (except “0”). The power and speed of the device can be maximized by the pulse button (the speed can be set to “5”). Move the appliance in a circle to make the mixer The noodle bar can effectively stir food.

- Stop the blender occasionally using a plastic spatula to scrape off the sides of the mixing bowl and continue mixing. .

Warning: When using the blender, do not place the blender or noodle bar near the side of the mixing bowl, otherwise it will be dangerous..

Warning: In order to prevent the blender from overheating, do not operate it for more than 10 minutes each time. Allow the equipment to cool to room temperature before using it..

Use handblender (use for handblender)

Make sure that the stainless steel stir bar is inserted into the slot and secure.
Plug into a standard household electrical outlet.

Stir the fruits / vegetables and water into a measuring cup, hold the blender handle and place the inner surface of the edge of the blender

To avoid the risk of ingredients splashing and injury when opening the device, make sure to hold the beaker with one hand

Press the speed selector setting on PULSE. Press the pulse button to start the device. For better mixing, you can move the stainless steel stirring rod in the measuring cup slightly.

Note: To prevent the blender from overheating, do not run it for more than 1 minute at a time. Allow the device to cool to room temperature before using it. Do not stir without load as this will increase the temperature of the bottom of the mixing tube and may cause burns. Do not use it for mixing dry food..

Use chopper

Make sure the cutting cup is inserted into the slot and secure.

Make sure the meat / vegetables are in a shredder bowl for processing.

Plug into a standard household electrical outlet.

Place the meat / vegetables in separate shredder bowls for processing. Grasp the blender handle.

The speed selector is set to "PULSE". Press the pulse button to start the device.

For better mixing, you can press and hold the pulse button slightly every few seconds.

Note: To prevent the blender from overheating, do not run it for more than 1 minute at a time. Allow the device to cool to room temperature before using it.

Remove the blender or noodle stick / lantern stick / stainless steel blender / cutting cup

Set the speed selector to "0" to "OFF".

Turn off the device at the power source.

Unplug the device.

Press the "back button" button to exit the noodle stick / lantern stick / double egg fork.

Turn the stainless steel stirring rod clockwise to remove it from the blender.

Turn the stirrer counterclockwise to remove it from the lid of the cutting cup, and then rotate the lid of counterclockwise to remove it from the container of the cutting cup.

Recipe: The container filled with 90g honey+100g raisin.

Note: When operating the hand blender, do not release the whisks / noodles / stainless steel stirrers or rotating stirrers / cutting cups; remove the accessories from the bowl / measuring cup (beating only after all accessories are completely stopped) Egg waffle / stir noodle stick / stainless steel stir stick / cutting cup).

Note: While pressing the "back button" button to remove the accessory, always set the speed selector to "0" (OFF).
